Summary

Web developer with over 4 years of experience building powerful and scalable web applications. Thrives on solving complex backend logic and crafting beautiful frontend interfaces. Strong leadership experience as a CEO and CTO. Passionate about clean code, optimized performance, and impactful UX. Remote-ready and eager to join innovative teams shaping the web in 2026. ٢ •૭•?

Experience

CEO @ TechSavvy | 2020 – 2025

- Led TechSavvy, a Khulna-based e-commerce startup, from idea to regional market leader.
- Oversaw operations, web development, and customer experience.
- Implemented smart tech solutions like LED nightlights with motion sensors.
- Scaled business logistics and digital marketing pipelines.

CTO @ Biddyan | 2022 – 2024

- Led the tech team in building a student-focused edtech platform.
- Integrated exam systems, user dashboards, and admin portals.
- Focused on performance, accessibility, and intuitive UX.

CTO @ DMC Reigns | 2023 – 2024

- Architected and managed web platforms for internal operations.
- Provided leadership and mentoring to a cross-functional developer team.
- Emphasized component reusability and CI/CD integration.
